

State of Nevada

Silver State Health Insurance Exchange  
2310 S. Carson St. #2  
Carson City, NV 89701

**Nevada Health Link State Based Exchange Platform**  
**Plan Year 2023 DRAFT Plan Certification Letter to Issuers**  
February 22, 2022

**Date: February 22, 2022**

**From: The Silver State Health Insurance Exchange (The Exchange or SSHIX)**

**Title: Plan Year 2023 DRAFT Plan Certification Letter to Issuers**

The Silver State Health Insurance Exchange (SSHIX or Exchange), also known as Nevada Health Link, in collaboration with the Division of Insurance (DOI), is releasing this 2023 draft Letter to Issuers participating in Nevada’s State-Based Exchange (SBE) for Plan Year (PY) 2023. This letter is issued alongside and incorporates guidance from the Centers for Medicare & Medicaid Services (CMS) 2023 Letter to Issuers in the Federally-Facilitated Exchanges. See [CMS PY23 Draft Letter to Issuers](#) for more information.

This letter provides updates on operational and technical guidance for PY 2023 for issuers seeking to offer qualified health plans (QHPs), including qualified dental plans (QDPs), on the Exchange (“Nevada Health Link platform”). It contains guidance provided by CMS and DOI to ensure compliance with CMS, the Nevada Administrative Code (NAC), the Code of Federal Regulations (CFRs), the Nevada Revised Statutes (NRS), and the Office of the Law Revision Counsel, United States Code (OLRC, U.S.C.).

*This guidance summarizes policies proposed through other rulemaking processes that may not have yet been finalized, such as proposals included in the Notice of Benefit and Payment Parameters for 2023 not included in the final rule. Stakeholders should refer to further rulemaking for finalized policies.*

## CHAPTER 1: CERTIFICATION PROCESS FOR QUALIFIED HEALTH PLANS

The Patient Protection and Affordable Care Act (PPACA) and applicable regulations provide that health plans, including QDPs, must meet a number of standards in order to be certified as QHPs. Several of these are market-wide standards that apply to plans offered in the individual and small group markets both inside and outside of the Exchange. The remaining standards are specific to health plans seeking QHP certification from the Exchange.

This chapter provides an overview of the QHP certification process. Additional information and instructions about the process for issuers to complete a QHP application can be found on the [Carrier Resources](#) webpage on NevadaHealthLink.com or [CMS QHP Certification](#).

### Section 1. QHP Certification Process and Timeline

As in prior years, issuers will submit an Intent to Sell Form, linked here: [Intent to Sell Form](#), as well as a complete a QHP application for all PY 2023 plans they intend to have certified by SSHIX. Through an iterative process as shown below in Table 1.1., SSHIX will review QHP applications for current and new issuers applying for QHP certification and send issuers notices summarizing any need for corrections after each round of review.

The Exchange will send Draft Plan Year 2023 Issuer Agreements for issuers to review prior to finalizing the agreements. Once finalized, SSHIX will send the Final Plan Year 2023 Issuer Agreements to QHP and QDP issuers to sign and submit to SSHIX outlined in Table 1.1. Proposed QHP Data Submission and Certification Timeline for Plan Year 2023.

The Exchange will countersign the Issuer Agreements and return to issuers along with a final list of certified QHPs, completing the certification process for the upcoming plan year. An issuer must submit a plan withdrawal form to SSHIX in order to withdraw a plan from QHP certification consideration, or to change an on-Exchange QHP under certification consideration to an off-Exchange QHP for certification consideration.

**Please note:** All QHP binders must be certified through the Nevada Health Link SBE Platform as well as the System for Electronic Rates and Form Filings (SERFF) in order for plans to be visible for purchase to consumers. Once binders are received, no plans may be added. Also, certification in the Nevada Health Link SBE Platform can only occur once the plans Review of Rates and Network Adequacy have received approval from the DOI. See [Section 9. Review of Rates](#) and [Section 3. Network Adequacy](#) for more information. Any changes needed to a QHP binder after 8/24/2022 would need a State Authorization form to be submitted through SSHIX.

New for Plan Year 2023, the QHP Data Submission and Certification Timeline includes additional dates associated with the CMS QHP Quality Rating and QHP Enrollee Survey activities. These activities already take place, and no new requirements are reflected here, but certain deadlines related to those activities are also included in this timeline. The timeline has also been updated with additional dates for plan verification and URL requirements as related to plan preview and window shopping.

**Table 1.1 Final QHP Data Submission and Certification Timeline for Plan Year 2023\*\***

<b>Activity</b>	<b>Deadline</b>
Issuers submit Intent to EDI Test Form with SSHIX – Required (Only new carriers)	4/1/2022
Issuers submit Intent to Sell Form with SSHIX – Required	4/1/2022
CMS QHP Enrollee Survey data submission deadline <sup>1</sup>	5/19/2022
HHS-approved QHP Enrollee Survey vendor securely submits the QHP Enrollee Survey response data to CMS on behalf of the QHP issuer <sup>2</sup>	5/24/2022
Binder submission due in SERFF	6/1/2022
SSHIX initial review of binder data submitted in SERFF	6/1-7/13/2022
QHP issuer submits the validated QRS clinical measure data, with attestation, to CMS via NCQA’s Interactive Data Submission System (IDSS) <sup>3</sup>	6/15/2022
Initial objection letter sent	6/16/2022
First data transfer from SERFF to Nevada Health Link SBE Platform	7/13/2022
Issuer plan preview on Nevada Health Link SBE Platform	7/13-8/19/2022
QHP issuers, Exchange administrators, and CMS preview the 2022 QHP quality rating information	8/1-9/30/2022
Proposed rate change posted on the DOI website	8/2/2022
Supplemental URL Templates due in SERFF	8/3/2022
Draft Plan Year 2023 Issuer Agreements sent to issuers for review (Including attachments and Policy Memo)	8/16/2022
Plan Preview ends, deadline for all plans to be verified	8/19/2022
Letters of Good Standing and Network Adequacy	8/19/2022

<sup>1</sup> Regulations at 45 CFR 155.1000 provide Exchanges with broad discretion to certify QHPs that otherwise meet the QHP certification standards specified in Subpart C of Part 156, and afford Exchanges the discretion to deny certification of QHPs that meet minimum QHP certification standards, but are not ultimately in the “interest” of qualified individuals and qualified employers.

<sup>2</sup> QRS and QHP Enrollee Survey Technical Guidance for 2022, available at: <https://www.cms.gov/files/document/2022-qrs-and-qhp-enrollee-survey-technical-guidance.pdf>

<sup>3</sup> Each QHP issuer must submit and plan-lock its QRS clinical measure data by June 1 to allow the HEDIS® Compliance Auditor sufficient time to review, approve, and audit-lock all submissions by the June 15 deadline. There are no fees for QHP issuers associated with accessing and using the IDSS.

submitted to the Exchange from DOI	
Final deadline for issuers to change QHP application without State Authorization (not applicable to rates)	8/24/2022
Rate filings approved by DOI	8/25/2022
Final data transfer from SERFF to Nevada Health Link SBE Platform if applicable	8/26/2022
Plans re verified for rates – rates must be approved by DOI	8/30/2022
Final Plan Year 2023 Issuer Agreements sent to issuers with final plan confirmation list	9/2/2022
Issuers send signed agreements and confirm final plan listings	9/2-9/13/2022
SSHIX to send final plan confirmation list and countersigned Issuer Agreements to issuers	9/13/2022
Plans Certified in SERFF	9/13/2022
Approved rate changes posted on the DOI website	10/1/2022
Consumer window shopping begins	10/1/2022
URL links need to be live for window shopping	10/1/2022
Limited data correction window (not applicable to utilize for service area changes, plan offerings, or rate data). Must obtain State Authorization prior to use of window.	10/5-10/7/2022
Anticipated public display of QHP quality rating information <sup>4</sup>	11/1/2022
Open enrollment begins	11/1/2022

\*\*All dates are subject to change with notice to carrier.

## Section 2. Electronic Data Interchange (EDI) Requirements

Issuers will be required to notify SSHIX no later than April 1, 2022, if they intend to offer plans in Nevada for Plan Year 2023. New issuers are required to work collaboratively with SSHIX’s technology vendor, GetInsured (GI), for EDI-related matters<sup>5</sup>. PLEASE NOTE: returning issuers offering plans through Nevada Health Link for Plan Year 2022 are not required to complete EDI testing for Plan Year 2023. Please see link provided for Intent to EDI test form: [Intent to EDI Test PY 2022](#). In addition, please refer to the [834 companion guide](#) for EDI requirements<sup>6</sup>. Section 3. QHP Application Data Submission

---

<sup>4</sup> QHP Quality Rating information will be available on the Nevada Health Link Website at: <https://www.nevadahealthlink.com/transparency/>

<sup>5</sup> For questions regarding EDI matters, please email the Recon Support team at: [reconsupport@exchange.nv.gov](mailto:reconsupport@exchange.nv.gov).

<sup>6</sup> This section may be updated with additional information in future publications. GetInsured 834 Companion Guide can be found at the Nevada Health Link Website at: <https://www.nevadahealthlink.com/wp->

The Exchange and DOI expect issuers to adhere to the QHP certification timeline. The Exchange requires issuers, including QDP issuers, to submit complete QHP applications by the initial binder submission deadline on 6/1/2022 and to make necessary updates to the QHP application prior to the last deadline for issuer submission on 8/24/2022.

All issuers must obtain Health Insurance Oversight System (HIOS) product and plan IDs using HIOS. HIOS plan ID's cannot be recycled. Only new plan ID's can be used. When reusing a Plan ID from one benefit year to the next, the metal level, market, and plan type (e.g., HMO, PPO) must be the same to ensure the integrity of the Risk Adjustment program and adherence to uniform modification requirements established in 45 CFR Sections 144.103 (definition of "plan") and 147.106. If the plan's actuarial value changes, resulting in a metal level change, you must establish a new Plan ID for the following year. In past years, CMS has been able to accommodate some of these issues, but system changes implemented preclude CMS from changing the metal level for a Plan ID. These changes were made to ensure the integrity and accuracy of EDGE server data for all issuers.

Access to the Nevada Health Link SBE Platform remains unchanged from Plan Year 2021 and 2022. Issuers must have each user complete the [SSHIX Acceptable Use Agreement](#) to gain access to the system. The SBE Platform is used to review and verify the accuracy of plan data. Issuers applying for QHP certification will use the National Association of Insurance Commissioners' System for Electronic Rate and Form Filing (SERFF) to collect plan data, which may include copies of the QHP templates, and any data submitted by issuers applying for QHP certification.

All issuers applying for QHP certification will be able to view plan data in the Plan Preview environment in order to identify and correct data submission errors before the final QHP application data submission deadline. Issuers will be able to view their plan data after SSHIX transfers the QHP data from SERFF to Nevada Health Link SBE Platform. Issuers should utilize the Plan Preview environment to verify that their plan display reflects their approved filings. All plans must be verified in the Nevada Health Link SBE Platform by 8/30/2022, as reflected in Table 1.1, Proposed QHP Data Submission and Certification Timeline for Plan Year 2023.

Discrepancies between an issuer's QHP application and approved filings may result in a plan not being certified or a compliance action if SSHIX has already certified a plan as a QHP. All issuers must complete quality assurance activities to ensure the completeness and accuracy of QHP application data, including reviewing plan data in the Plan Preview environment, and run all necessary review tools provided by CMS. Tools can be found at the following link: <https://www.qhpcertification.cms.gov/s/Review%20Tools>.

#### Section 4. QHP Data Changes

During the certification process for Plan Year 2023, SSHIX will allow issuers to make changes to their QHP application based on the guidelines below. These changes are in addition to any corrections that SSHIX identified during its review of QHP applications. There will be occasional

windows used for data corrections as needed. Those dates will be defined at a later date and issuers will be notified by SSHIX of the data correction windows.

Table 1.3 Key Dates for QHP Data Changes

Activity	Deadline
QHP/QDP certification review. Changes permitted without State Authorization	6/4-8/24/2022
Limited data correction window. Data corrections must have State Authorization	10/5-10/8/2022

Issuers may make changes to their QHP submissions without State Authorization with the exception of rate information until the deadline listed in Table 1.1 Proposed QHP Data Submission and Certification Timeline for Plan Year 2023. After the close of the initial QHP application submission window, issuers may not add new plans to a QHP application or change an off-Exchange plan to both on and off-Exchange. Issuers also may not change plan type(s) and may not change QHPs, excluding QDPs, from a child-only plan to a non-child-only plan. Issuers may only change their service area after SSHIX approves the change. For all other changes, issuers will be able to upload revised QHP data templates and make other necessary changes to QHP applications in response to State feedback until the deadline for issuer changes.

To withdraw a plan from QHP certification consideration, an issuer must submit a plan withdrawal form to the Exchange. After submission of an initial QHP application, an issuer should not remove plan data from the application templates, even if the issuer withdraws a plan. In addition, issuers seeking to change an on-Exchange QHP under certification consideration to an off-Exchange QHP for certification consideration must submit a plan withdrawal request.

After the final deadline for issuer changes to QHP applications, issuers will only make corrections directed by SSHIX. Issuers whose applications are not accurate after the deadline for issuer submission of changes to the QHP application, which is 8/24/2022, and are then required to enter the limited data correction window, may be subject to compliance action by the Exchange and DOI. Issuer changes made in the limited data correction window require state authorization. If not approved by SSHIX and/or the DOI may result in compliance action by the Exchange and/or the DOI, which could include decertification and suppression of the issuer’s plans on <https://www.nevadahealthlink.com/><sup>7</sup>.

After completion of the QHP certification process, SSHIX may offer additional data correction windows. SSHIX will only consider approving changes that do not alter the QHP’s certification status or require re-review of data previously approved by the Exchange or DOI. A request for a data change after 8/24/2022, excluding administrative changes, may be made due to inaccuracies in or the incompleteness of a QHP application, and may result in compliance action.

---

<sup>7</sup> The SSHIX Plan Certification Guide provides a detailed overview of the annual Plan Certification process for the Nevada Health Link State Based Exchange (SBE) Platform, defining the coordinated roles and responsibilities of the Silver State Health Insurance Exchange (SSHIX), the Nevada Division of Insurance (DOI) and Nevada’s On-Exchange Insurance Carriers (Issuers). SSHIC Plan Certification Guide can be found at <https://www.nevadahealthlink.com/>

Discrepancies between the issuer's QHP application and approved State filings may result in a plan not being certified or a compliance action if SSHIX has already certified a plan as a QHP. Issuers that request to make changes that affect consumers may have their plans suppressed from display on Nevada Health Link SBE Platform until the data is corrected and refreshed for consumer display.

## Section 5. QHP Review Coordination with SSHIX

SSHIX will define the relevant submission window for reviews as well as dates and processes for corrections and resubmissions.

SSHIX will perform QHP certification reviews and may exercise reasonable flexibility in their application of QHP certification standards, provided that the application of each standard is consistent with state and federal regulations and guidance. Issuers seeking QHP certification in Nevada should continue to refer to State direction in addition to this guidance.

The Exchange and DOI will establish the timeline, communication process, and resubmission window for any reviews conducted under State authority. As noted previously, issuers should comply with any State-specific guidelines for review and resubmission related to State review standards. Issuers must meet all applicable obligations under State law and Federal law to be certified for sale on <https://www.nevadahealthlink.com/>.

SSHIX will make final QHP certification decisions and load certified QHP plans on Nevada Health Link SBE Platform for consumer purchase.

SSHIX will provide all of their recommendations and relevant information to issuers in a timely manner and no later than the final plan recommendation deadline noted in Table 1.1.

## Section 6. Plan ID Crosswalk

Pursuant to 45 CFR 155.335(j), the Division of Insurance is responsible to conduct Plan ID Crosswalk for plan year 2023. Issuers will need to submit their Plan ID Crosswalk template along with their binder submission in SERFF on June 1, 2022. Plan ID Crosswalk changes must be uploaded to SERFF. DOI will provide SSHIX with a letter of approval for all Plan ID Crosswalk Templates.

## Section 7. Template Changes for Plan Year 2023

The Exchange will continue to use the CMS templates for Plan Year 2023. CMS has introduced various changes in templates. The changes to these templates has required SSHIX to utilize supplement changes to collect the data being removed from the CMS templates.

Supplemental templates can be found on the [Carrier Resources webpage](#).

Issuers will need to submit their supplemental URL templates in SERFF by June 1, 2022, as reflected in Tables 1.1 and 3.1. The Enrollment Payment URL is manually updated. If any issuers

have changes to their Enrollment Payment URL, please email Plan Management at [pmanagment@exchange.nv.gov](mailto:pmanagment@exchange.nv.gov).

#### Section 8. Issuer Participation for the Full Plan Year

Issuers seeking QHP certification must adhere to 45 CFR 156.272 in offering a QHP through the full plan year. The full plan year for plan year 2023 is defined as 1/1/2023-12/31/2023.

## **CHAPTER 2: QUALIFIED HEALTH PLAN AND QUALIFIED DENTAL PLAN CERTIFICATION STANDARDS**

This Chapter provides an overview of key QHP certification standards for both QHPs and QDPs on Exchange and how SSHIX will evaluate and conduct reviews of 2023 QHPs and QDPs for compliance.

### Section 1. Licensure and Good Standing

The Division of Insurance (DOI) determines whether each applicant is licensed and in good standing pursuant to 45 CFR 156.200(b)(4).

### Section 2. Service Area

SSHIX has defined service areas for on-Exchange plans. The Service Area Policy is linked for reference: [SSHIX Service Areas](#)

### Section 3. Network Adequacy

This section describes how SSHIX will address network adequacy standards and certification review. Exchange will rely on the Division of Insurance to conduct its network adequacy review for plan year 2023 QHP certification of all plans with the exception of dental plans which will be reviewed by the Exchange. NRS 687B.490 requires that “a carrier that offers coverage in the small employer group or individual market must, before making any network plan available for sale in this State, demonstrate the capacity to deliver services adequately by applying to the Commissioner for the issuance of a network plan and submitting a description of the procedures and programs to be implemented to meet the requirements.”

As was done during the 2022 certification processes, for 2023 plan year certification, the Division of Insurance will assess provider networks using the standards outlined in the Adequacy of Networks section of NAC 687B.

This section provides clarity on the criteria that the DOI has previously used and will use as part of the certification process to review network provider data to determine network adequacy. NAC 687B.768 currently has time and distance standards for the following specialties: Hospitals, Endocrinology, Infectious Disease, Psychiatrist, Psychologist, Licensed Clinical Social Works, Pediatrics, Oncology, Outpatient Dialysis, Primary Care, and Rheumatology. Note that NRS 687B.768 sets the minimum standard at the standards listed in the most recent version of the Letter to Issuers in the Federally-Facilitated Marketplaces (Letter to Issuers) issued by the Centers for Medicare & Medicaid Services (CMS) of the United States Department of Health and Human Services. Any changes to the standards in Letter to Issuers could impact the required network adequacy standards. The DOI will provide updated guidance if the final Letter to Issuers for Plan Year 2023 impacts the Essential Community Provider standards.

Based on the current state standards which were in effect for plan year 2022, in order to determine

whether plans provide reasonable access for these specialties, we will review the provider data using the maximum time and distance standards detailed in the table below.

Table 2.1. Specialties and Standards for Plan Year 2023 Network Adequacy Certification<sup>8</sup>

Specialty Area	Maximum Time or Distance Standards (Minutes/Miles)			
	Metro	Micro	Rural	Counties with Extreme Access Considerations (CEAC)
Primary Care	15/10	30/20	40/30	70/60
Endocrinology	60/40	100/75	110/90	145/130
Infectious Diseases	60/40	100/75	110/90	145/130
Oncology - Medical/Surgical	45/30	60/45	75/60	110/100
Oncology - Radiation/Radiology	60/40	100/75	110/90	145/130
Psychiatrist	45/30	60/45	75/60	110/100
Psychologist	45/30	60/45	75/60	110/100
Licensed Clinical Social Works (LCSW)	45/30	60/45	75/60	110/100
Pediatrics	25/15	30/20	40/30	105/90
Rheumatology	60/40	100/75	110/90	145/130
Hospitals	45/30	80/60	75/60	110/100
Outpatient Dialysis	45/30	80/60	90/75	125/110

<sup>8</sup> Full definitions for each of the county designations listed can be found are available at [https://www.cms.gov/Medicare/MedicareAdvantage/MedicareAdvantageApps/Downloads/MA\\_Network\\_Adequacy\\_Criteria\\_Guidance\\_Document\\_1-10-17.pdf](https://www.cms.gov/Medicare/MedicareAdvantage/MedicareAdvantageApps/Downloads/MA_Network_Adequacy_Criteria_Guidance_Document_1-10-17.pdf).

For each specialty and standard listed in the table, the Exchange will review the issuer-submitted data to make sure that the plan provides access to at least one provider in each of the above-listed provider types for at least 90 percent of enrollees. For example, for Primary Care in a Metro county type, at least 90 percent of enrollees must have at least one provider within 15 miles or 30 minutes.

As in past years, in addition to permitting issuers to add additional providers, the Exchange will use a justification process when the DOI determines that an issuer's network is inadequate under the review standard. The justification process requires that QHP issuers detail patterns of care and other relevant information that explain how the issuer provides reasonable access to enrollees in the identified area(s). The justification must specifically address how issuers meet the reasonable access standard, despite not meeting the time and distance standards.

#### Section 4. Essential Community Providers (ECP)

The Exchange will rely on the DOI as the State regulatory agency to conduct reviews of the ECP standard for QHP and QDP certification for Plan Year 2023. The approach for reviews of the ECP standard remains unchanged from that used in 2022, with the exceptions noted below. Please refer to NAC 687B.768<sup>9</sup> for more information.

To comply with the Essential Community Provider requirements a network plan must provide evidence that the network plan:

Contract with at least 30 percent of the essential community providers in the service area of the network plan that are available to participate in the provider network of the network plan, as calculated using the same methodology utilized in Federally facilitated Exchanges.

Offer contracts in good faith to all available Indian health care providers in the service area of the network plan, including, without limitation, the Indian Health Service, Indian Tribes, tribal organizations and urban Indian organizations, as defined in 25 U.S.C. § 1603, which apply the special terms and conditions necessitated by federal statutes and regulations as referenced in the *Model Qualified Health Plan Addendum for Indian Health Care Providers*.

Offer contracts in good faith to all available ECPs in all Counties designated as Counties with Extreme Access Considerations (CEAC) included in the plan's service area.

Note that NRS 687B.768 sets the minimum standard at the standards listed in the most recent version of the Letter to Issuers in the Federally-facilitated Marketplaces (Letter to Issuers) issued by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services. Any changes to the standards in Letter to Issuers could impact the required Essential Community Provider standards. The DOI will provide updated guidance if the final Letter to Issuers for plan year 2023 impacts the Essential Community Provider standards.

---

<sup>9</sup> [NAC: CHAPTER 687B-Contracts of Insurance \(state.nv.us\)](https://www.nv.gov/nac/CHAPTER_687B-Contracts_of_Insurance_(state.nv.us))

## Section 5. Accreditation

The approach for reviews of the accreditation standard remains largely unchanged from 2022. However, in consideration of the announcements by HHS-recognized accrediting entities making modifications to accreditation standards due to the COVID-19 public health emergency, CMS may provide flexibilities with regard to health plan accreditation reviews, as appropriate. HHS encourages issuers to provide their accrediting entity (AE) their Health Insurance Oversight System (HIOS) ID number associated with their organization as they begin to work with the AE(s) on accreditation.

The QHP issuer must meet a minimum level of accreditation by an accrediting entity recognized by HHS. SSHIX will verify an issuer's accreditation status for certification or recertification. SSHIX utilizes the same timeline requirements defined in 45 CFR 155.1045(b) that are used in Federally Facilitated Exchanges. In addition, SSHIX requires a QHP issuer to comply with regulations set forth in 45 CFR 156.275.

Issuers entering their initial year of QHP certification for plan years beginning in 2020 must meet the requirement in 45 CFR 155.1045(b)(1), but may submit accreditation information for display if they have existing accreditation. If an issuer is entering its initial year of QHP certification, it must schedule (or plan to schedule) a review with a recognized accrediting entity (i.e., AAAHC, NCQA or URAC). A QHP issuer in their second or later year of certification must achieve AAAHC, NCQA, or URAC accreditation.

SSHIX will request a copy of any accreditation review scheduled for the upcoming plan year, or the accreditation certificate. The issuer shall notify SSHIX within five business days if there is a change in accreditation status or if there is a failure to maintain up-to-date accreditation. SSHIX reserves the right to decertify a QHP if accreditation is terminated or not achieved by the relevant deadline.

SSHIX will certify a health plan as accredited if one of the following statuses is held by the QHP issuer:

- NCQA: Certificate of Accreditation (The overall rating is the weighted average of a plan's HEDIS and CAHPS measure ratings, plus accreditation bonus points, rounded to the nearest half point displayed as stars)
  - SSHIX will not recognize NCQA status: denied
- URAC: full, provisional, or conditional (conditional status requires a second review within three to six months)
  - SSHIX will not recognize URAC status: denial
- AAAHC: Certificate of Accreditation
  - SSHIX will not recognize AAAHC status: denial

SSHIX may certify a QHP prior to that health plan becoming Exchange-accredited as described below. During a new issuer's initial and next two certification processes, SSHIX may certify a health plan as a QHP that is unaccredited if the issuer satisfies the following:

- When submitting a health plan for certification, an issuer must attest that it will schedule the "exchange accreditation" (in accordance with 45 CFR §§156.275 and 156.1045) in the product types (HMO, EPO, MCO, POS, or PPO) used in offering its QHPs.

## Section 6. Patient Safety Standards for QHP Issuers

The approach for QHP patient safety annual certification standards remains unchanged from 2022 and prior years, and is outlined in 45 CFR 156.1110. SSHIX utilizes the same requirements defined in 45 CFR 156.1110 that are used in Federally Facilitated Exchanges. Please refer to the regulation for details regarding guidance for QHP issuers who contract with a hospital with more than 50 beds.

## Section 7. Quality Reporting Strategy

The approach for review of QHP issuer compliance with quality reporting standards related to the QRS and QHP Enrollee Survey remains unchanged from 2022. Please refer to the [Quality Rating System and Qualified Health Plan Enrollee Experience Survey: Technical Guidance for 2022](#) for more detailed information on issuer data collection and reporting requirements for the 2022 calendar year.

To satisfy this criteria, QHP issuers are required to participate in Quality Rating System (QRS) provided under ACA Section 1311(c)(3), including the disclosure and reporting of information on health care quality and outcomes described in ACA Sections 1311(c)(1)(H) and 1311(c)(1)(I), and the implementation of appropriate enrollee satisfaction surveys consistent with ACA Section 1311(c)(4) (and 45 CFR §156.200(b)(5)). Issuers must also comply with additional federal guidance regarding the QRS and enrollee satisfaction surveys, including requirements described in [the Quality Rating System and Qualified Health Plan Enrollee Experience Survey: Technical Guidance for 2022](#) and the [2022 Quality Rating System Measure Technical Specification](#), published by CMS, and any subsequent updates to that guidance.

The suspension of activities related to the collection of clinical quality measures for the QRS and survey measures for the QHP Enrollee Survey noted in the 2021 Letter to Issuers was specific to the 2021 Plan Year (2020 ratings year).

While reporting units that meet all eligibility criteria per CMS<sup>10</sup> will be required to collect and submit 2022 QRS clinical measure data and QHP Enrollee Survey response data, not all reporting units will be eligible for QRS scoring. Eligible reporting units will not receive QRS scores and ratings until their third consecutive year of operation in the Exchange. Therefore, a reporting unit that is eligible to be scored must meet the criteria for data submission and have been in operation for at least three consecutive years. Therefore, a reporting unit must be operational on the

---

<sup>10</sup> [2022 QRS and QHP Enrollee Experience Survey: Operational Instructions \(cms.gov\)](#)

Exchange in 2020, 2021, and 2022 to receive QRS scores and ratings. 2022 Quality Rating System and QHP Enrollee Experience Survey is subject to final rule per CMS. This information and corresponding QRS and QHP Enrollee Survey activity dates are also included in Table 1.1

QHP issuers are required to collect and submit validated 2022 QRS clinical measure data and QHP Enrollee Survey response data to CMS for each reporting unit that meets all the criteria listed below:

- Offered through an Exchange in the prior year (i.e., 2021 calendar year);
- Offered through an Exchange in the ratings year (i.e., 2022 calendar year) as the exact same product type; and
- Meets the QRS and QHP Enrollee Survey minimum enrollment requirements:
  - Included more than 500 enrollees as of July 1 in the prior year (i.e., July 1, 2021); and -
  - Included more than 500 enrollees as of January 1 of the ratings year (i.e., January 1, 2022).

In other words, QHP issuers are required to collect and submit validated clinical measure data and QHP Enrollee Survey response data for each product type offered through an Exchange for two consecutive years (i.e., 2021 and 2022) that had more than 500 enrollees as of July 1, 2021 and more than 500 enrollees as of January 1, 2022.

Reporting units discontinued before June 15 of the ratings year (i.e., June 15, 2022) are exempt from the QRS and QHP Enrollee Survey requirements. QHP issuers with reporting units with more than 500 enrollees as of July 1, 2021 that are uncertain whether they will have more than 500 enrollees as of January 1, 2022 should proceed as if they are required to field the 2022 QHP Enrollee Survey by contracting with an HHS approved QHP Enrollee Survey vendor and preparing to generate the sample frame on or after January 7, 2022. If the eligibility status of a reporting unit changes, QHP issuer must notify CMS within three business days of discovery, but no later than January 6, 2022.

QHP issuers should refer to the Marketplace Quality Initiatives website for more detailed information on issuer data collection and reporting requirements for the 2022 calendar year. CMS will issue technical guidance for the QRS and QHP Enrollee Experience Survey.

CMS will work with issuers to collect data and calculate the quality performance ratings for QHPs offered through SSHIX that will display during the open enrollment period for the 2023 plan year. During 2023, qualifying issuers will report data from the 2022 plan year to CMS, and that data will be analyzed by CMS and be the basis for the quality performance. All qualifying issuers must submit QRS Reporting via SERFF with annual binder submission.

For Plan Year 2023, the Nevada Health Link SBE Platform will display plan rating data on the NevadaHealthLink.com Transparency page, linked below. The QRS ratings will be published during consumer shopping in accordance with CMS regulations: [Nevada Health Link/Transparency webpage](#)

In addition to the requirements described above, a QHP issuer may also be required to participate

in any other quality reporting requirements that may be authorized by federal regulation or specified by SSHIX. There are no requirements for issuers on Exchange at this time to submit Transparency in Coverage to CMS.

SSHIX will notify any issuer who is eligible for 2022 QRS based on the 2022 QRS participation requirements. Participation requirements can be found in the CMS Technical Guidance for 2022.

## Section 8. Quality Improvement Strategy

The approach for QHP certification reviews for quality improvement strategy (QIS) reporting remains unchanged from 2022. CMS intends to provide information on the applicable QIS requirements in the forthcoming [QIS Technical Guidance and User Guide for the 2022 Plan Year](#).

SSHIX follows CMS guidance for QIS reporting. Any eligible QHP issuer participating in SSHIX for two or more consecutive years must implement, and report on, a quality improvement strategy (QIS), in accordance with ACA § 1311(g), 45 CFR 156.1130, other applicable law, and Exchange guidance. A QIS is required to incentivize quality by tying payments to (1) performance measures when providers meet specific quality indicators, or (2) measures related to incentivizing enrollees to make certain choices or exhibit behaviors associated with improved health.

QHP issuers should refer to the Marketplace Quality Initiatives website for more detailed information on Quality Improvement Strategy Requirements for the 2022 calendar year, as well as the forthcoming Plan Year 2023 QIS Technical Guidance and User Guide.

An eligible issuer for the 2023 plan year is any QHP issuer that:

- Offered coverage through SSHIX in 2019 and 2020 and submitted a QIS Implementation Plan or Progress Report for the 2021 Plan Year,
- Provides family and/or adult-only medical coverage, and
- Meets the QIS minimum enrollment threshold (more than 500 enrollees within a product type as of July 1, of the prior year).

The QIS requirements apply to all issuers offering QHPs, including QHPs compatible with health savings accounts (HSAs). For plan year 2023, QIS requirements will not apply to child-only plans or qualified dental plans.

All eligible issuers must comply with the following QIS requirements for the 2023 plan year:

- Implement a QIS, which is a payment structure that provides increased reimbursement or other market-based incentives for improving health outcomes of plan enrollees.
- Implement a QIS that includes at least one of the following:
  - Activities for improving health outcomes;
  - Activities to prevent hospital readmissions;

- Activities to improve patient safety and reduce medical errors;
- Activities for wellness and health promotion; and
- Activities to reduce health and health care disparities.
- Adhere to federal guidelines, including the forthcoming IS Technical Guidance and User Guide for the 2023 Coverage Year.
- Report on progress implementing the QIS to SSHIX in accordance with guidelines established by SSHIX.

Issuers may implement one QIS that applies to all eligible QHPs in SSHIX, or may implement more than one QIS, tailored to the needs of different QHPs. A QIS does not have to address the needs of all enrollees in a given QHP but may address needs of specified sub-populations.

Eligible issuers for the 2023 plan year must submit the following documents to SSHIX along with their binder filing in SERFF in order to meet this certification criterion:

- A QIS applicable to any QHP to be offered by SSHIX in the form and manner specified by SSHIX, which for the 2023 plan year will require use of the QIS Implementation Plan and Progress Report Form provided by SSHIX.

SSHIX utilizes the forms that CMS relates for the Implementation Plan and Progress Report Form.

Issuers are required to submit QIS information using the CMS QIS Implementation Plan and Progress Report form, which will be formatted and provided to issuers by SSHIX. Issuers should also submit a summary of each QIS applicable to a QHP offered by SSHIX.

Issuers are required to submit their QIS summary in both PDF and Word formats and include the issuer's logo. All qualifying issuers must submit QIS Reporting via SERFF with annual binder submission.

## Section 9. Review of Rates

This section pertains to QHP rate filings. Additional information is available in 45 CFR Part 154.

As required by 45 CFR 156.210(c) and 155.1020, a QHP issuer must submit a rate filing justification for each plan in the single risk pool. A rate filing justification includes:

- (1) Part I: Uniform Rate Review Template (URRT), required for all single risk pool products, including new and discontinuing plans and products;
- (2) Part II: Written description justifying the rate increase (also known as a consumer justification narrative), required for each single risk pool product that includes a plan with a rate increase;
- (3) Part III: Actuarial memorandum, required for each single risk pool product.

Please contact the DOI if you have any questions relating to the content of these documents and any other state-specific requirements.

## Section 10. Discriminatory Benefit Design

The approach to discriminatory benefit design remains unchanged from that used in 2022. The Exchange will collaboratively work with the Division of Insurance to conduct and review the Discriminatory Benefit Design review for plan year 2023 QHP Certification of all plans, including discriminatory benefit design, QHP discriminatory benefit design, and the treatment protocol calculator.

Pursuant to 45 CFR 156.125, an issuer does not provide EHB if its benefit design, or the implementation of its benefit design, discriminates based on an individual's age, expected length of life, present or predicted disability, degree of medical dependency, quality of life, or other health conditions.

Pursuant to 45 CFR 156.200(e), a QHP issuer must not, with respect to its QHP, discriminate on the basis of race, color, national origin, disability, age, sex, gender identity or sexual orientation.

Pursuant to 45 CFR 156.225, a QHP issuer must not employ marketing practices or benefit designs that will have the effect of discouraging the enrollment of individuals with significant health needs in QHPs.

## Section 11. Prescription Drugs

The approach for reviewing issuers' prescription drug benefit offerings remains unchanged from that used in 2022. The Division of Insurance as the State regulatory agency will conduct a review of the QHP issuer's prescription drug benefit offerings in plan year 2023.

Pursuant to 45 CFR 156.122(a)(1), referred to as the EHB prescription drug count standard, establishes that, generally, a health plan does not provide EHB unless it covers at least the greater of: 1) one drug in every United States Pharmacopeia (USP) category and class; or 2) the same number of prescription drugs in each category and class as the EHB-benchmark plan.

## Section 12. Third Party Payment of Premiums and Cost Sharing

Requirements related to QHP and SADP issuers' acceptance of third-party payments of premiums and cost sharing on behalf of QHP enrollees remain unchanged from 2022. 45 CFR 156.1250, governs requirements related to QHP and QDP issuers' acceptance of third party payments of premiums and cost sharing on behalf of QHP enrollees. Issuers offering individual market QHPs, including QDPs, and their downstream entities, must accept premium and cost-sharing payments on behalf of QHP enrollees from the following third-party entities (in the case of a downstream entity, to the extent the entity routinely collects premiums or cost sharing):

- Ryan White HIV/AIDS Program under title XXVI of the PHS;

- An Indian tribe, tribal organization, or urban Indian organization; and
- A local, State, or Federal government program, including a grantee directed by a government program to make payments on its behalf.

### Section 13. Cost-sharing Reduction Plan Variations

The approach for issuers to provide cost-sharing reductions (CSRs) to consumers through CSR plan variations remains unchanged from 2022 and earlier years. QHP issuers are required under 45 CFR 156.420 to submit three plan variations with reduced cost sharing for each silver level QHP an issuer offers through SSHIX, as well as zero and limited cost-sharing plan variations for all metal-level QHPs an issuer offers through SSHIX, for individuals who are eligible for cost-sharing reductions, as outlined in 45 CFR 155.305. This section does not apply to QDPs, as cost-sharing reductions (CSRs) do not apply to QDPs. Eligible consumers can enroll in these plan variations for the 2023 plan year and will continue to receive cost-sharing reductions provided by the issuers. However, cost-sharing reduction payments to issuers are subject to appropriation.

45 CFR 156.420(a) specifies for individuals eligible for cost-sharing reductions, the variations of the standard silver plan with an annual limitation on cost sharing specified in the annual HHS notice of benefit and payment parameters for such individuals, and other cost-sharing reductions such that the AV of the silver plan variations are at 94 percent, 87 percent and 73 percent, plus or minus the de minimis variation for each silver plan variation.

45 CFR 156.420(b) specifies for the submission of zero and limited cost sharing plan variations for individuals who are eligible as outlined in 45 CFR 155.350, the variation of the health plan with all cost sharing eliminated, or a variation of the health plan with no cost sharing on any item or service that is an EHB furnished by the Indian Health Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization (each as defined in 25 U.S.C. 1603) or through referral under contract health services. Please refer to Chapter 5: Tribal Relations and Support for more information in that regard.

Additionally, the benefit and network equivalence in the standard silver plan and each silver plan variation thereof must cover the same benefits and providers. The benefit and network equivalence in the zero and limited cost sharing plans thereof must cover the same benefits and providers. The out-of-pocket spending required of enrollees in the zero cost sharing plan variation of a QHP for a benefit that is not an essential health benefit from a provider (including a provider outside the plan's network) may not exceed the corresponding out-of-pocket spending required in the limited cost sharing plan variation of the QHP and the corresponding out-of-pocket spending required in the silver plan variation of the QHP for individuals eligible for cost sharing reductions under 45 CFR 155.305(g)(2)(i), in the case of a silver QHP. The out-of-pocket spending required of enrollees in the limited cost sharing plan variation of the QHP for a benefit that is not an essential health benefit from a provider (including a provider outside the plan's network) may not exceed the corresponding out-of-pocket spending required in the QHP with no cost-sharing reductions. A limited cost sharing plan variation must have the same cost sharing for essential health benefits as the QHP with no-cost sharing reductions. Each zero-cost sharing plan variation or limited cost sharing plan variation is subject to all requirements applicable to the QHP.

Note that in reviewing for compliance with 45 CFR 156.420, SSHIX will ensure that silver plan variations have an annual limitation on cost sharing that does not exceed the permissible threshold for the specified plan variation as finalized in the 2022 Payment Notice final rule<sup>11</sup>.

#### Section 14. Data Integrity Review

The Exchange and DOI will conduct data integrity reviews as needed and will supply issuers with any discrepancies found. Issuers should submit binders in accordance with ensuring data integrity tools have been ran.

<sup>11</sup> [Federal Register :: Patient Protection and Affordable Care Act; HHS Notice of Benefit and Payment Parameters for 2022; Notice Requirement for Non-Federal Governmental Plans](#)

## CHAPTER 3: QUALIFIED DENTAL PLANS: 2023 APPROACH

New for Plan Year 2023, the Proposed QDP Certification Timeline for Plan Year 2023 includes the additional due dates of verification of plans and live URL links as they relate to plan preview and window shopping. As in prior years, issuers will submit an Intent to Sell Form, linked here: [Intent to Sell Form](#)

Table 3.1 Final QDP Certification Timeline for Plan Year 2023\*

Activity	Deadline
Issuers submit Intent to EDI test with SSHIX - Required	4/1/2022
Issuers submit Intent to Sell Form with SSHIX – Required	4/1/2022
Binder submission due in SERFF	6/1/2022
SSHIX initial review of binder data submitted in SERFF	6/1-7/13/2022
Initial objection letter sent	6/16/2022
First data transfer from SERFF to Nevada Health Link SBE Platform	7/13/2022
Issuer plan preview on Nevada Health Link SBE Platform	7/13-8/19/2022
Supplemental URL Templates due in SERFF	8/3/2022
Draft Plan Year 2023 Issuer Agreements sent to issuers for review (Including attachments and Policy Memo)	8/16/2022
Plan Preview ends	8/19/2022
Letters of Good Standing and Network Adequacy submitted to Exchange from DOI	8/19/2022
Final Deadline for Issuers to change QDP application without State Authorization (not applicable to rates)	8/24/2022
Final data transfer from SERFF to Nevada Health Link SBE Platform	8/26/2022
Plans verified for plan accuracy and rates – rates must be approved by DOI	8/30/2022
Final Plan Year 2023 Issuer Agreements sent to issuers with final plan confirmation list	9/2/2022
Issuers send signed agreements, and confirm final plan listings	9/2-9/13/2022
SSHIX to send final plan confirmation list and countersigned attestations and billing agreements to issuers	9/13/2022
Plans Certified in SERFF	9/13/2022
Consumer window shopping begins	10/3/2022
URL links need to be live for window shopping	10/3/2022
Limited data correction window (not applicable to utilize for service area changes or rate data). Must obtain State Authorization prior to use of window.	10/5-10/7/2022
Open enrollment begins	11/1/2022

\* All dates are subject to change with notice to carrier.

## Section 1. Electronic Data Interchange (EDI) Requirements

Issuers will be required to notify SSHIX no later than April 1, 2022, if they intend to offer plans in Nevada for Plan Year 2023. New issuers will then be required to work collaboratively with SSHIX's vendor, GetInsured (GI), for EDI-related matters<sup>12</sup>. PLEASE NOTE: returning issuers offering plans through Nevada Health Link for Plan Year 2022 are not required to complete EDI testing for Plan Year 2023. Please see link provided for Intent to EDI test form: [Intent to EDI Test PY2022](#). In addition to refer to the [834 companion guide](#) for EDI requirements<sup>13</sup>.

## Section 2. QDP Annual Limitation on Cost Sharing

For Plan Year 2023, the SADP annual limitation on cost sharing for one covered child is \$350 increased by the 12.696 percentage point increase of the Consumer Price Index (CPI) for dental services of 516.519 for 2021 over the CPI for dental services for 2016 of 458.330, increasing the annual limitation on cost sharing for SADPs by \$44.44 to a total of \$394.44. The regulation at 45 CFR 156.150(d) requires incremental increases to be rounded down to the next lowest multiple of \$25, meaning the annual limitation on cost sharing for SADPs for plan year 2023 will be \$375 for one child and \$750 for two or more children. For more information on how this limitation is determined, please refer to § 156.150 and to the 2018 Letter to Issuers.

## Section 3. Network Adequacy Standards

For the Network Adequacy Standards of QDP's, as well as Essential Community Providers on Exchange, please refer to the link provided below, located on the Carrier Resource page of Nevada Health Link: [Network Adequacy for Qualified Dental Plans](#)

## Section 4. QDP Actuarial Value Requirements

The approach to actuarial value requirements and certification for QDP coverage of the pediatric EHB remains unchanged from 2022. For plan year 2023, QDP issuers may offer the pediatric dental EHB at any actuarial value. QDP issuers will be required to certify the actuarial value of each QDP's coverage of pediatric dental EHB. QDP issuers can offer pediatric dental essential health benefit (EHB) without selecting or calculating an AV level of that coverage.

---

<sup>12</sup> For questions regarding EDI matters, please email the Recon Support team at: [reconsupport@exchange.nv.gov](mailto:reconsupport@exchange.nv.gov).

<sup>13</sup> This section may be updated with additional information in future publications. GetInsured 834 Companion Guide can be found at the Nevada Health Link Website at: [https://www.nevadahealthlink.com/wp-content/uploads/2021/10/GetInsured-834-Companion-Guide-v21.09.01.NV1\\_.pdf](https://www.nevadahealthlink.com/wp-content/uploads/2021/10/GetInsured-834-Companion-Guide-v21.09.01.NV1_.pdf)

## **CHAPTER 4: CONSUMER SUPPORT AND RELATED ISSUES**

### Section 1. Consumer Case Tracking and Coverage Appeals

SSHIX requires QHP and QDP issuers to thoroughly investigate and resolve consumer complaints received directly from the members, or forwarded to the QHP or QDP issuer by the Exchange or the DOI.

For complaints that are sent to the issuer from SSHIX, the issuer will be required to monitor the complaint via case management through the Carrier Connector. Cases received in any form will be input into the GI issuer portal for issuers to meet a resolution.

### Section 2. Meaningful Access

45 CFR 155.205(c) and ACA Section 1557 specifies access standards for QHP issuers, and includes language access standards with respect to oral interpretation, written translation, and website translation.

HHS implemented a Final Rule of the ACA Section 1557 in June 2020 in which a portion of the final rule removes the previous mandate that required issuers to distribute non-discrimination notices and “taglines” translation notices in at least fifteen languages within all “significant communications” to patients and customers, eliminating costly and unnecessary regulatory burdens.

Additionally, the Exchange notes that QHP issuers are not required to make available a printed copy of written translations of a formulary drug list pursuant to §155.205(c), unless doing so is necessary for providing meaningful access to an individual with a disability or an individual with limited English proficiency. Under §155.205(c) (cross-referenced at §156.250), QHP issuers must make information that is critical for obtaining health insurance coverage or access to health care services through the QHP, including the formulary drug list, accessible to individuals with disabilities and individuals with limited English proficiency. We consider a QHP issuer to be in compliance with the written translation requirements under §155.205(c) if the issuer’s general practice is to make required written translations of the formulary drug list available on its website, as long as the issuer provides printed copies of the document to consumers who need a printed copy in order to access it.

### Section 3. Summary of Benefits and Coverage

The content of this section applies to all QHP issuers and summarizes the completion of the Summary of Benefits of Coverage.

SSHIX utilizes the requirements defined in 45 CFR 147.200. QHP issuers are required to provide the SBC in a manner compliant with the standards set forth in 45 CFR 147.200, which implements

section 2715 of the PHS Act, as added by the ACA. Specifically, issuers must fully comply with the requirements of 45 CFR 147.200(a)(3), which requires issuers to “provide an SBC in the form, and in accordance with the instructions for completing the SBC, that are specified by the Secretary in guidance. The SBC must be presented in a uniform format, use terminology understandable by the average plan enrollee (or, in the case of individual market coverage, the average individual covered under a health insurance policy), not exceed four double-sided pages in length, and not include print smaller than 12-point font. A health insurance issuer offering individual health insurance coverage must provide the SBC as a stand-alone document.”

On November 7, 2019, CMS released an updated SBC coverage examples Calculator, Guide and Narratives for coverage examples, SBC Template, and other associated resources (the 2021 SBC) for SBCs describing plans or policies effective on or after January 1, 2021. On February 3, 2020, the Departments of Health and Human Services, Labor, and the Treasury released updated versions of the 2021 SBC Template and related materials, following the identification of minor formatting issues, typographical errors, and inconsistencies across documents. These versions replace the versions released on November 7, 2019. These updates ensure consistency across 2021 SBC materials and do not impact SBC guidelines and instructions. The SBC Calculator is used by plans and issuers to generate cost-sharing estimates for coverage to treat three hypothetical medical scenarios (maternity care, type II diabetes, and a simple foot fracture) that are required to be included in the SBC. The Departments of Health and Human Services, Labor, and the Treasury updated the Calculator, Guide, and Narratives based on feedback from stakeholders in order to improve its functionality, flexibility, and accuracy. Use of the Calculator is not required. Plans and issuers may create their own calculator using the Guide and Narratives provided by HHS, or modify the logic of the Calculator to provide their own method of calculating estimated out-of-pocket-costs for the Coverage Examples, which may be more accurate based on their particular plan or policy design.

Issuers will be required to use the 2021 Summary of Benefits and Coverage (SBC) form, as well as the sample SBC’s for American Indian/Alaska Native (AI/AN) zero and limited cost sharing plans<sup>14</sup>, authorized for use for plan years that begin on or after January 1, 2021.

---

<sup>14</sup> [Other Resources | CMS](#)

## **CHAPTER 5: DECERTIFICATION**

Pursuant to 45 CFR 155.1080, SSHIX can terminate the certification status and offering of a QHP if at any time the QHP issuer is no longer in compliance with the general certification criteria as outlined in 45 CFR 155.1000(c). More information on the process of decertification can be found in the [SSHIX Plan Certification Guide](#).

## **CHAPTER 6: TRIBAL RELATIONS AND SUPPORT**

Guidance concerning Indian health care providers remains unchanged from 2022 and earlier years. For more information, please refer to the 2022 Letter to Issuers.

The Federal Government, and therefore CMS, has a historic and unique relationship with Federally recognized tribes, and the health programs operated by the IHS, Tribes and Tribal organizations and Urban Indian organizations. These are collectively known as Indian health care providers. Adhering to QHP certification standards, CMS reminds QHP issuers to contract with Indian health care providers, through which a significant number of American Indians and Alaska Natives (AI/AN) access health care. To promote contracting between issuers and Indian health care providers, CMS is continuing to require QHPs to offer contracts in good faith to all available Indian health care providers in the QHP's service area, applying the special terms and conditions necessitated by Federal law and regulations as referenced in the Model QHP Addendum (Addendum).

CMS developed the Addendum to facilitate the inclusion of Indian health care providers in QHP provider networks. The Addendum is a model standardized document for QHP issuers to use in contracting with Indian health care providers. To make it easier for QHPs to find Indian health care providers, a list of eligible providers and their address and contact information may be found on the HHS ECP list available on the CCIIO website. We strongly encourage issuers to ensure each offer is sent to the correct address and contacts. Similarly, we encourage all Indian health care providers to ensure their contact information correctly appears on the HHS ECP list and review all offers and respond timely to issuers. For further details, please refer to Chapter 2, Section 4, "Essential Community Providers" in this document.

Section 206 of the Indian Health Care Improvement Act (IHCIA) (25 USC 1621e) provides for a right of recovery from an insurance company and other third-party entities, including QHP issuers, for reasonable charges billed by an Indian health care provider when providing services, or, if higher, the highest amount the third party would pay for services furnished by other providers. This right of recovery applies whether the Indian health care provider is in a plan network or not. Further details can be found at <https://www.ihs.gov/ihcia/>.

Even though Indian health care providers have a right of recovery under section 206 of the IHCIA, CMS encourages issuers and Indian health care providers to develop mutually beneficial business relationships that promote effective care for medically underserved and vulnerable populations.

For more information on Indian Health Care Providers and the Model QHP Addendum, please see the Carrier Resources page of our website linked below:

Model QHP Addendum for Indian Health Care Providers
