APTIC May be available for households above 400% of FPL if an Exchange plan would cost more than 8.5% of household income due to ARPA continuation.											

*** Note: Current year (2022 or 2023) FPLs, if available, are used for Medicaid/CHIP programs, whereas for Exchange Programs, the prior year FPL guidelines are used. Current year FPL guidelines are usually published by IRS by April 1, until that time prior year FPL guidelines will be used for Medicaid/CHIP programs.
